

Senior content designer with 12 years across product and education. I lead complex work from early strategy through interaction language, onboarding, experimentation, and launch, then turn decisions worth repeating into standards and tools teams can use. My product experience spans social and spatial computing, health, and enterprise software.

Experience

Nov 2022 - May 2026

Meta

Content designer → Senior content designer · Horizon, experimentation, and AI

- Built Meta's content-standards infrastructure, including Verso, the company's first domain-specific content-design agent, plus deterministic checks, an 11-dimension measurement engine with product baselines derived from shipped strings, and a structured index of terminology rules and review blockers.
- Led travel terminology across Meta Horizon OS: one vocabulary for calling, sessions, and travel across VR, mobile, and desktop. Also led the naming audit for the Meta Quest-to-Horizon OS rebrand.
- Established Meta Horizon's first content experimentation practice and led content designers across its major product areas. Built workshops and tools for hypotheses and test tracking, then coached designers to create reusable AI skills and deterministic checks.
- Led content strategy for the Meta Horizon mobile app from early journeys through launch experiments. A feed test lifted 28-day retention by about 15%; a quests homepage increased daily active use by nearly 5% in its first test.
- Defined the jobs to be done and progressive-disclosure model for Horizon Portals, introduced by Mark Zuckerberg at Meta Connect 2024. Replaced a 14-plus-lesson VR onboarding syllabus with just-in-time spatial education, improving onboarding completion by nearly 30%, weekly active use by about 20%, and new-user retention by roughly 7%.

Oct 2021 - Oct 2022

Digbi Health

Lead UX writer

- Led end-to-end product content for a precision-health startup, translating microbiome, genetic, and clinical data into personalized journeys from onboarding through behavior change.

Apr - Oct 2021

8x8

UX writer

- Made enterprise voice, video, chat, contact-center, and phone-administration tools understandable to the business owners who had to configure them.

2014 - 2021

WVU, VCU, and Army Logistics University

Professor

- Spent seven years teaching composition and poetry at WVU and VCU, then training Army officers to turn complex, high-stakes information into clear, direct language.

Methods and tools

Product strategy · Interaction language · Onboarding and education · Experiment design · Content modeling · Terminology and taxonomy · AI workflows and evals · Workshop facilitation · Figma · Python

Education

- 2018 **MFA, Poetry**
Virginia Commonwealth University
- 2014 **BA, English**
West Virginia University
